

FOR IMMEDIATE RELEASE

Kurz Industrial Solutions Acquires Endeavor Technologies, Expanding Expertise in Precision Motor Services and Industrial Automation

Neenah, WI – March 19, 2025– Kurz Industrial Solutions, a leading provider of electromechanical solutions and services, today announced the acquisition of Endeavor Technologies, a recognized authority in the rebuilding of precision spindle and servo motors. This strategic acquisition significantly enhances Kurz’s capabilities in industrial automation and expands its expertise in advanced motor repair.

“We were particularly drawn to Endeavor Technologies’ unwavering commitment to customer service and quality, values that resonate deeply with Kurz,” stated Brian Nowak, President of Kurz Industrial Solutions. “Their experienced team and specialized electro-mechanical expertise will strengthen our service offerings, broaden our technical capabilities, and extend our geographic reach beyond Wisconsin.”

Chuck Nichols, President of Endeavor Technologies, commented, “After two decades of establishing Endeavor Technologies as a nationally respected provider of spindle and servo motor services for CNC machinery, we sought a partner who shared our values and could propel us to the next level. We were immediately impressed by the enthusiasm and alignment of core values at Kurz. Joining Kurz Industrial Solutions is an exceptional opportunity to expand our specialized services to a wider industrial automation market. We are eager to grow alongside a team that prioritizes honesty, integrity, and a customer-centric approach.”

The terms of the transaction were not disclosed.
